# BILLS TO ENABLE NEW YORK TO BUILD AND RENT HOMES BEING DRAFTED AT CAPITAL

Legislature Takes Up State Reconstruction Programme Urged to Meet Housing Problem-Hint of Special Session if Measures Fail.

By Joseph S. Jordan.

(Special Staff Correspondent of The Evening World.)
ALBANY, N. Y., April 2.—With the anti-rent profiteering laws safe on the statute books, the Legislature will now turn its attention to the real solution of the housing problem, more building and fine recommendations of Gov. Smith's Reconstruction Commission, which were sent to both Houses last week with a message from the Governor.

The measures include a constitutional amendment allowing State aid for home building and, of more immediate avail, an act which will permit cities of the first class to erect buildings on their unoccupied lands and to rent them.

Cent. Raises in Rent. ALBANY, N. Y., April 3, 1930.

THE impression that bills legalize an increase of 25 per cent, in rent over 1919 or any other period is wholly wrong. They provide that on increases up to 25 per cent. the tenant must show them to be unreasonable and oppressive, if the increase exceeds 25 per cent. the legal presumption is that it is unreasonable and oppressive and the burden is on the landlord

Thus, you see, the court or jury might find any increase to be either reasonable or unreason-

### PARIS BACKS WILSON VIEW.

The commission is now working on the framing of the desired measures, me of which was submitted to Minor-

ty Leader James Walker of the Senate, who turned it over to Senator John J. Dunnigan of the Housing Committee, and it is expected that the work of rushing the measures will occupy the attention of both Houses next week.

While Gov. Smith has given as intimation of his doing so, it is rumored about the Capitol that he may call a special session to act upon asures designed to meet a critical situation, if the regular session adjourns without action,

With the rent problem solved for the next two years, the proposition is now to get more quarters for the public, and to do this may require a getting together of builders, building material men and the leaders of the building labor unions. That the rents are not the only things to be reduced is the consensus of opinion among those who are giving most time and study to the situation, and the Governor's bills are to be the opening wedge of the downward movement,
